

# BencoxCup System

# Bencox Cup System

Bencox Hibrid Cup(2tab/3hole)  
For both Ceramic and PE bearing

## Acetabular Component

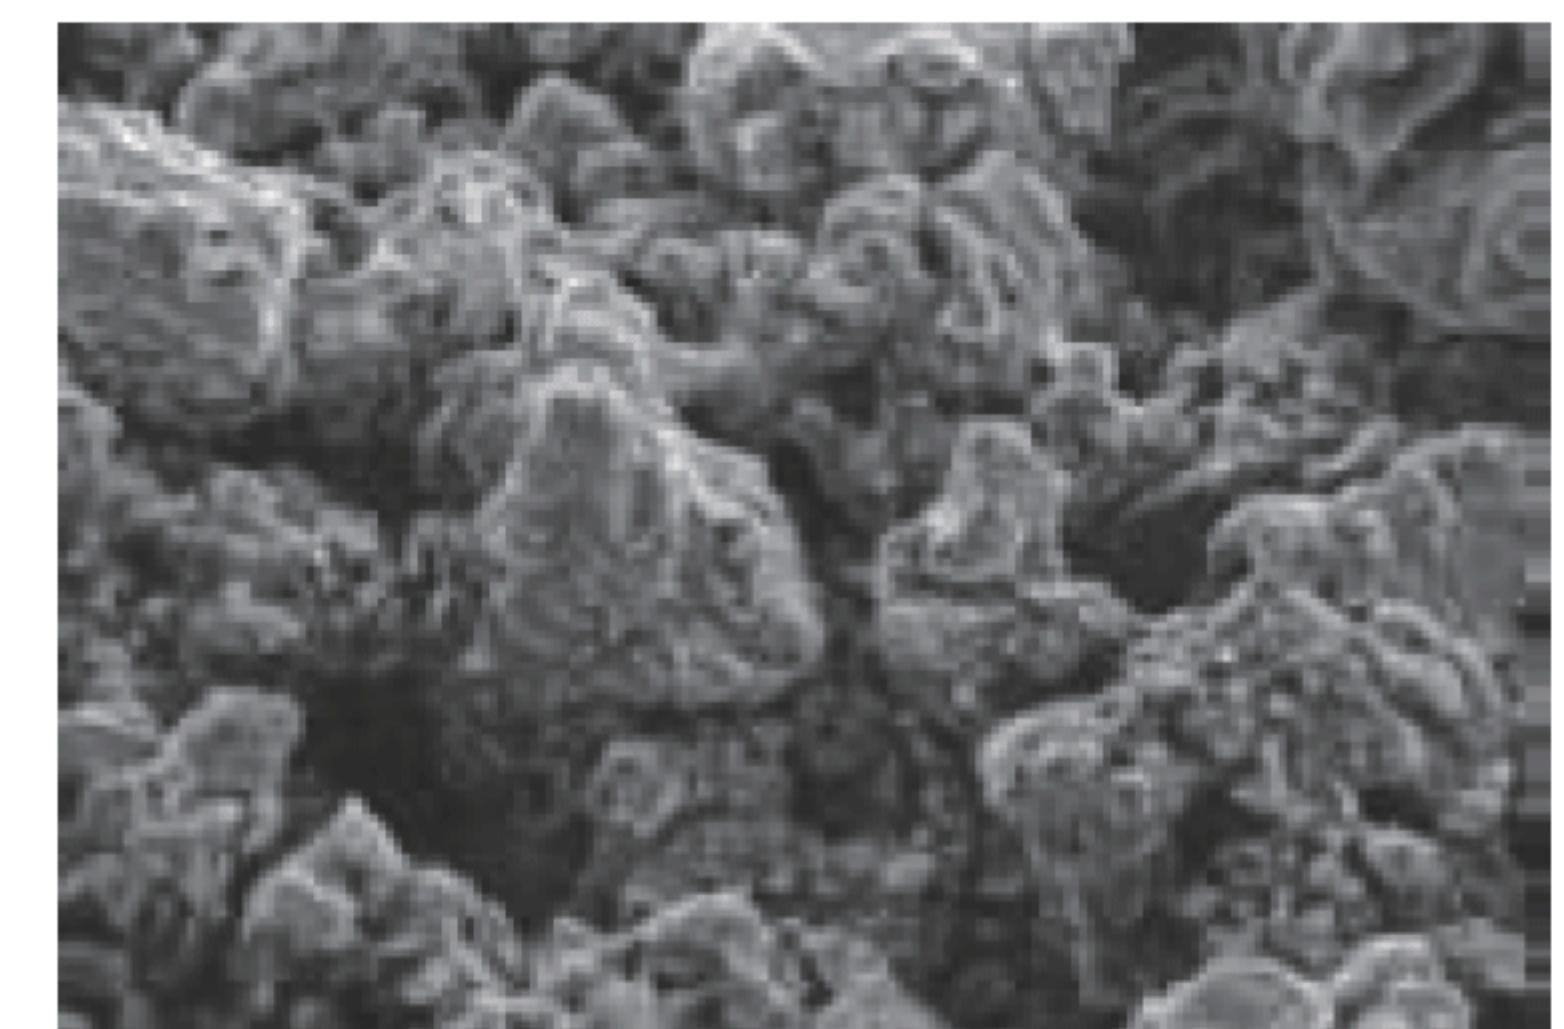

- Acetabular Component is hemisphere-shaped, maximizing the peripheral and polar contact at once.
- Three screw holes are anatomically designed and located for more effective fixation; and enough insertion angles are allowed to simplify the surgery.

## Surface Treatment

### Plasma Sprayed Ti Coating

- The surface treatment on an artificial joint is an essential factor for success ; at the same time, it's the precise indication of a manufacturer's technique.
- Acetabular Component of Bencox Hip System is coated using plasma spray method.
- The microporous pure titanium coating with more than 30% porosity leads to direct bone apposition for secondary stability. Rough surface supports a more stable primary fixation.

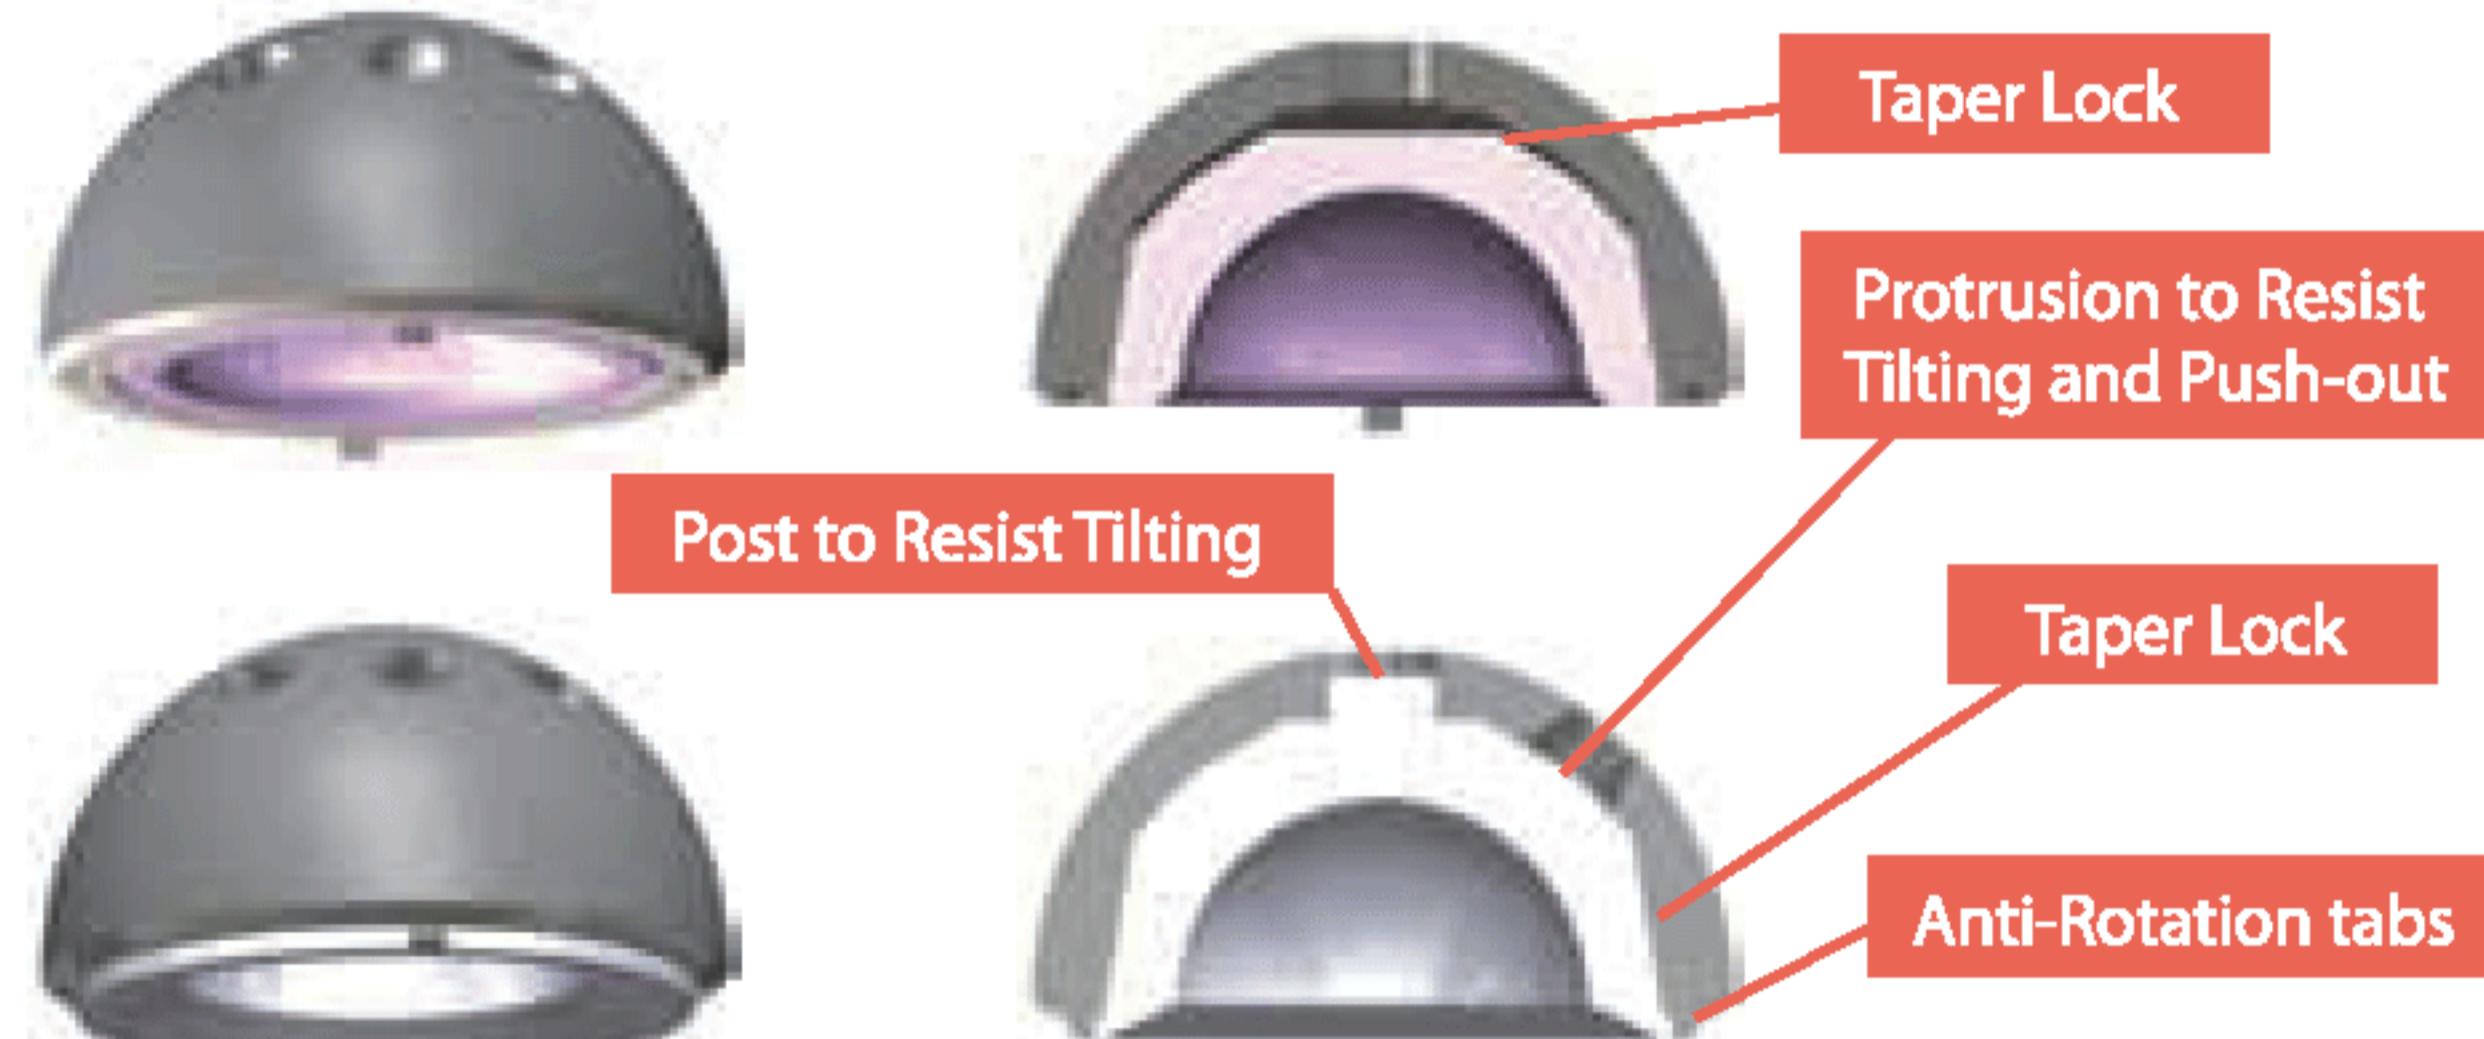

## Two-in one Bearing Cup System

- Unique locking design allows for ceramic and PE liner in one cup.

## Secure Locking Mechanism

- Cup and ceramic insert provides a secure locking mechanism while providing a self-locating feature to ease insert placement.
- The locking mechanism between cup and PE liner allows for secure fixation with superior congruity for the push-out, rotation and tilting.

## Various Choice of Acetabular Cups

- Outer diameter from 44 to 74mm allows precise patient matching for optimal patient fit.

## Improved Range of Motion

- Optimal range of motion with the innovative stem neck design reduces the potential for impingement and dislocation.
- P-ROM following to the different head diameter and offset.

LOADING POINT

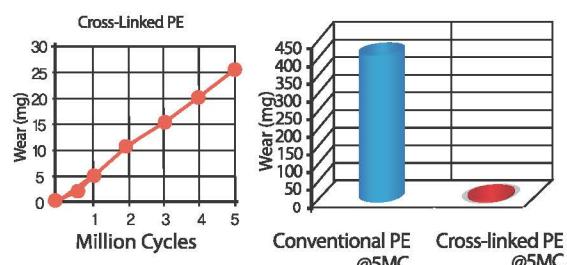

## Cross-Linked UHMWPE for PE Liner

- Compression molded GUR 1020 rods are used.
- Initial toughness and strength is higher than 1050.
- Gamma irradiated at room temp. to a 75kGy to facilitate cross-linking
- After irradiation, the rods are heated above the melting point to eliminate residual free radicals and form additional cross-links.
- PE liners are machined and cleaned, packaged, and EtO sterilized
- Residual free radicals and form additional cross-links.

## Enhanced Wear Characteristics

- Cross-linked PE liners exhibit 94% less wear in vitro tests than conventional PE liners.

## Bencox Delta

Bencox Delta is a high performance ceramic biocomposite material with the potential to be used in applications which were not previously possible using ceramics. It combines the excellent material properties of alumina ceramics in terms of chemical and hydrothermal stability with extremely low wear, superior mechanical strength and improved fracture toughness.

Bencox Delta is composed of approximately 75% aluminum oxide, which provides the basic hardness and wear resistance and approximately 25% zirconia, which together with other additives provides the improved mechanical properties compared with pure aluminum oxide ceramic. Bencox delta offers higher mechanical properties including higher fracture toughness.

## Bencox Forte

Bencox Forte composed of High purity aluminum oxide ceramic ( $\text{Al}_2\text{O}_3$ ), was first used in artificial hip joints at the start of the 1970s: full resistance to attack within the body, very good biocompatibility, excellent surface finish and dimensional stability, extreme resistance to wear, and minimal friction. The diameter sizes are available Ø 28mm, 32mm and 36mm.

| Part No.  | Description     |
|-----------|-----------------|
| 01.01.201 | Bone Screw 15mm |
| 01.01.202 | Bone Screw 20mm |
| 01.01.203 | Bone Screw 25mm |
| 01.01.204 | Bone Screw 30mm |
| 01.01.205 | Bone Screw 35mm |
| 01.01.206 | Bone Screw 40mm |
| 01.01.207 | Bone Screw 45mm |
| 01.01.208 | Bone Screw 50mm |
| 01.01.209 | Bone Screw 55mm |
| 01.01.210 | Bone Screw 60mm |

### Bencox Forte Head

| Part No.  | Description             |
|-----------|-------------------------|
| 01.01.251 | Forte Head 28mm/S(-3.5) |
| 01.01.252 | Forte Head 28mm/M(0)    |
| 01.01.253 | Forte Head 28mm/L(+3.5) |
| 01.01.254 | Forte Head 32mm/S(-4)   |
| 01.01.255 | Forte Head 32mm/M(0)    |
| 01.01.256 | Forte Head 32mm/L(+4)   |
| 01.01.257 | Forte Head 36mm/S(-4)   |
| 01.01.258 | Forte Head 36mm/M(0)    |
| 01.01.259 | Forte Head 36mm/L(+4)   |

### Bencox Delta Head

| Part No.  | Description             |
|-----------|-------------------------|
| 01.01.281 | Delta Head 28mm/S(-3.5) |
| 01.01.282 | Delta Head 28mm/M(0)    |
| 01.01.283 | Delta Head 28mm/L(+3.5) |
| 01.01.284 | Delta Head 32mm/S(-4)   |
| 01.01.285 | Delta Head 32mm/M(0)    |
| 01.01.286 | Delta Head 32mm/L(+4)   |
| 01.01.287 | Delta Head 36mm/S(-4)   |
| 01.01.288 | Delta Head 36mm/M(0)    |
| 01.01.289 | Delta Head 36mm/L(+4)   |
| 01.01.290 | Delta Head 40mm/S(-4)   |
| 01.01.291 | Delta Head 40mm/M(0)    |
| 01.01.292 | Delta Head 40mm/L(+4)   |
| 01.01.293 | Delta Head 40mm/XL(+7)  |
